*Start ups with credit scores under 650 & deals that we cannot get approved can be sent to another lender that will work directly with the customer. This lender has a big truck and trailer inventory so the trucks or trailers will have to be purchased from them directly to use their financing. They will also pay commission to the network. The commission will not come from River Rock Financial.

**River Rock Financial will pay a \$200 commission to the network on all deals that we finance. If the customer also uses one of our dealers to purchase the equipment then our dealers will pay an additional \$200 commission to the network, for a total of \$400! We work with over 40 truck and trailer dealers. All commission are the same for a start ups and owner operators.
